All,

The Road to 2024 Tour has been a blast so far. We've seen Democrats show up and engage with one another over a common goal to Fire Josh Hawley, unify our party, grow our volunteer base, and contest Republican held seats up and down the ballot.

There are still dates for you to join us on a stop along the Road to 2024 Tour. We can't win back Missouri if we don't have all hands on deck. We NEED you. We need your support, your grit and determination to be competitive during the 2024 election cycle. At each stop, you'll be able to connect with party leaders who are giving updates on the 2023 legislative session and providing tangible ways to energize our base. Bring your family and friends to one of the many great events planned. You can find a complete list of remaining stops below.

Governor signs bills to persecute transgender children

House Democrats denounce SB 39 and SB 49

"The governor had a chance to protect innocent families who are just trying to live their lives in peace. Instead he chose to persecute them. The governor could have said 'no' to bigotry and hate. Instead he embraced it. History tends to reflect poorly on oppression and the oppressors, and the stain of this action will not wash away."

Report: Expanded Child Tax Credit Created Largest Drop in Child Poverty in a Single Year

The expanded tax credit, which Congress let expire, helped dramatically reduce child poverty.

The expanded child tax credit, or CTC, created the largest drop in child poverty in a single year, according to a new report from the Joint Economic Committee Democrats. In 2021, child poverty nearly halved, dropping from 9.7 percent to 5.2 percent.

The CTC, expanded under the 2021 American Rescue Plan, lifted 5.3 million people, including 2.9 million children, out of poverty in 2021. According to the report, 2.1 million of those children were lifted out of poverty specifically due to the expansion.
